Services

.....  
Townsville

## Qualifications and Affiliations

- Bachelor Mechanical Engineering
- Member Institution of Engineers, Australia
- Member Australian Institute of Refrigeration, Air Conditioning and Heating
- Registered Professional Engineer, Queensland (No. 6134)
- Green Building Accredited Professional

## Experience Summary

Wayne graduated from James Cook University of North Queensland, Townsville with his Bachelor of Mechanical Engineering Degree in 1994. After graduation he worked at Dice City Refrigeration Townsville during 1995 with the service and construction section, obtaining air conditioning and refrigeration hands on experience.

In 1996 Wayne joined Ashburner Francis as a Graduate Mechanical Engineer and has been

very successful over the years in delivering many projects of all scales. Wayne's mechanical engineering responsibilities on projects span across the Design, Documentation and Contract Administration for Commercial, Institutional, Educational, Research Facilities, Hospitality, Aged Care, Retail Centres, Hospitals and Defence projects.

In late 2007, Wayne obtained Green Star Accreditation with the Green Building Council Australia as a Green Star Building Professional, allowing him to analyse and assess building performances against the Green Building Star Ratings. Wayne also has experience and skills in producing alternative energy modeling solutions in accordance with the BCA Section J – Energy Efficiency.

For the period of 1996 - 2002 Wayne was responsible for the Townsville Office Quality Assurance System, where he was the Townsville Quality Officer.

In 2007 he was appointed Director of Mechanical Services Townsville, where he assists in the operations and coordination of the Townsville Office Projects.
